

## Using Fonts

We've searched the web our best and have compiled a collection of over 600 fonts for your convenience. The fonts provided can be used on Corjl without any special licensing. If you don't find all of the fonts you need, upload your own fonts. Before uploading a font onto Corjl, be sure that you have the proper licensing. Many fonts do require a special license (for example, a Server or Product Creation License) if your customers will be using them to personalize designs.

To view our complete list of fonts, please see pages 2-8 or visit:
